

Membership Benefits

Referrals

Grow your business through referrals from NV. Our members average a 600% return on investment! We've been testing and adapting our referral method since June of 2006 and we're confident you'll love the results!

Peer support for your business

Each time we meet we focus on a pre-designated topic. From time management, and handling rejection to crafting your commercial and writing a press release, we gather in a round table discussion to enlighten each other on topics of interest to us all!

Continuing education

We are always learning new ways to improve our business and our selves through member driven topics, professional guest speakers, and presentations.

Collaborative promotional events

As a member you may receive invitations to be part of exclusive events developed to promote your business and NV as a whole. Several generous businesses have offered NV Members discounts on their products and services.

Free business consultation, masterminding, and mentoring

Members have the option of joining a Swarm, a smaller group of members who meet monthly to serve as each others focus group and board of trustees.

Childcare

Available at some locations. Ask your facilitator!

Support!

We all enjoy and juggle very full lives. NV provides an opportunity for men and women in all different stages of their careers to come together and serve as mentors to their peers. Each one of us has something to offer, and each one of us benefits from others experiences.
