

Start Your Own Chapter

Dear Potential Facilitators,

I'm so excited to share with you the NetworkingVenture Business Opportunity. There is absolutely no denying that business networking is the wave of the future and NV is definitely in the forefront of the movement. In the true sense of the word "networking", our satisfied members have been telling their friends, who tell theirs and so on, which has enabled NV to skyrocket into the multi-chapter venture it has become. But it's only just beginning!

It seems only natural that a business networking company adopt a marketing system where word-of-mouth and referrals benefit its facilitators directly. Now, for only \$160 and as few as 8 hours/month, you can get paid to network! It's a beautiful thing and I'd love for you to be a part of it! We'll train you via our Facilitator Launch manual and a phone interview. Upon completion you will be licensed to run as many chapters as you'd like using the NV name and method!

A Brief History

MotherVenture was born in June 2006 on the premise that women serious about growing their business needed and deserved a group in which to network. It has since grown and produced our more inclusive division of NetworkingVenture, welcoming men and women who are entrepreneurs, business owners, consultants, and sales representatives. MotherVenture still thrives as our women-only option!

Why start your own chapter?

Independence: NV gives you the freedom to make major lifestyle choices.

- Set your own hours
- Office from home or anywhere you'd like
- NV compliments your current business. Do what you already do to promote your current business and get paid for it!

Education: Many business opportunities are simply "buy in bulk" programs in disguise. Initial investments too often go towards a trunk full of merchandise and little else. Becoming a Licensed NV Facilitator means you're investing in a training program that educates you in skills you can use in every area of your life.

Support: When you become an Independent Facilitator we'll be there to support you every step of the way!

- Ongoing educational opportunities
- Licensed business support products
- National advertising
- Media kits
- Web business tools

Our Compensation Plan

Our compensation plan allows you to make from 50%-65% of all membership sales. With your starting compensation already being at 50% and each Annual Membership being \$240, that's \$120 in your pocket on your first sale! With two sales you've already covered the cost of your investment and made a profit! The best part is, we're confident you can run a successful chapter with a time commitment of as little as 8 hours/month, making for an attractive dollar to hour ratio!
